Mayagüez, Puerto Rico 00681-9050

Dear Mrs. Santiago,
Your application for license renewal includes Iodine-125. Do you still wish to maintain the Iodine-125 on the license? Can this material be released in accordance with your decay-in-storage procedures, and removed from the license?

Also, your application still includes the CPN portable gauge authorized for storage-only. Do you plan to transfer this gauge to an authorized entity?

Do you have plans for disposal of the material listed on the license as authorized for "possession and storage only, incident to disposal" (Items 6.E, 6.F, 6.H, 6.J, - 6.P)?

Call me when you have time so that we can discuss these items.

Thank you,

Scott Wilson
