Subject: Supporting Documentation from General Licensees Associated With the Application for Revision to the Standardized NUHOMS® System – CoC 1004, Amendments 0 through 11 and Amendment 13, Docket 72-1004

Reference: 1) Letter E-42575 from Paul Triska (AREVA Inc.) to Document Control Desk (NRC), "Application for Revision to the Standardized NUHOMS® System – CoC 1004, Amendments 0 through 11 and Amendment 13," August 24, 2015.

Based on discussions with NRC staff associated with the submission of the application to revise the Certificate of Compliance (CoC) 1004 for the Standardized NUHOMS® System for all currently approved amendments (Reference 1), AREVA Inc. (AREVA) is providing supporting documentation from all general licensees. This documentation, provided in Attachments 1 through 12, confirms that all current general licensees agree to voluntarily implement the changes proposed in Revision 1 to their associated CoC 1004 amendments and that these changes do not constitute a backfit. These changes are needed to address standalone independent spent fuel storage installation sites preparing for decommissioning who may not have an operational spent fuel pool available.

Should you have any questions, please contact Mr. Dennis Williford by telephone at (704) 805-2223, or by email at Dennis.Williford@areva.com.

Sincerely,

A handwritten signature in black ink that reads "Paul Triska".

Paul Triska
Vice President, Business Operations

cc: Christian Jacobs (NRC SFM)
