**Cc:** WILLIFORD Dennis (RS/IB); Voss, Brian K.; Bray, Luann E.  
**Subject:** FW: Voluntary Agreement to Implement CoC 1004 Amendment Revisions Which Remove the Requirement for a Spent Fuel Pool

Don,

Reference: AREVA Inc. Letter E-42575, from Paul Triska (AREVA) to NRC Document Control Desk, "Application for Revision to the Standardized NUHOMS<sup>®</sup> System – CoC 1004, Amendments 0 through 11 and Amendment 13, Docket 72-1004," dated August 24, 2015

The purpose of this communication is to confirm the following:

- Nebraska Public Power District is aware of and understands the proposed AREVA Inc. changes to the CoC 1004 Standardized NUHOMS<sup>®</sup> System Technical Specifications and the associated UFSAR changes, which are detailed in the letter referenced above for all approved amendments.
- We understand that these changes will result in Revision 1 to each currently approved CoC 1004 amendment.
- We understand that the previous version of the associated amendments will be superseded in their entirety by Revision 1.
- We agree to voluntarily implement these changes for our general licensee independent spent fuel storage installation (ISFSI) at the following site, which operates a CoC 1004 Standardized NUHOMS<sup>®</sup> System under one or more amendments:

Cooper Nuclear Station

- In order to allow sufficient time to incorporate these changes in a quality manner, we request that AREVA work with the NRC to provide its general licensees a maximum 180-day period after the effective date of the revised amendments during which we can complete incorporation and begin storage operations under the revised amendments.

Sincerely,

*Jim Shaw*  
*Licensing Manager*  
*Cooper Nuclear Station*
