Dear Dr. Wilds:

On January 8, 2016, the U.S. Nuclear Regulatory Commission (NRC) cited U.S. Environmental Protection Agency National Center for Radiation Field Operations (NCRFO) for three violations of NRC requirements. Inspection Report 030-06981/2015-001 with enclosed Notice of Violation required you to respond in writing in 30 days. You responded by letter on February 8, 2016.

After reviewing the information you provided in your response to the Notice of Violation, we have concluded that your completed and proposed actions appear to adequately address the regulatory noncompliance described in the Notice of Violation. We will review your implementation of these corrective actions during a future inspection to determine whether full compliance has been restored and whether compliance will be maintained.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
