

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

March 11, 2016

The Power Reactor Licensees  
on the Enclosed List

SUBJECT: CORRECTION TO THE U.S. NUCLEAR REGULATORY COMMISSION  
ANALYSIS OF LICENSEES' DECOMMISSIONING FUNDING STATUS  
REPORTS

In March 2015, the U.S. Nuclear Regulatory Commission (NRC) received your decommissioning funding status (DFS) report letters for your licensed reactors listed in Enclosure 1. By letter dated January 7, 2016 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML15357A397), the NRC staff provided a table of the operating power reactors that the NRC had determined that the licensees have satisfied the decommissioning funding assurance reporting requirements and have provided decommissioning funding assurance, as required in the regulations under Title 10 of the *Code of Federal Regulations* Section 50.75, "Reporting and recordkeeping for decommissioning planning." The table did not include Braidwood Station, Units 1 and 2 (Braidwood) and Bryon Station, Units 1 and 2 (Byron). Braidwood and Bryon were addressed separately by letter dated January 20, 2016 (ADAMS Accession No. ML16008A117). It should be noted that for this reporting cycle, the list of operating power reactors, included the five plants that were transitioning, or have transitioned, to a decommissioning status. These plants are: Kewaunee Power Station, San Onofre Nuclear Generating Station Units 2 and 3, Crystal River Unit 3 Nuclear Generating Plant, and Vermont Yankee Nuclear Power Station. The NRC staff has made the following corrections regarding this letter:

- 1) Big Rock Point was inadvertently placed in the table and has been removed;
- 2) In addition, other editorial changes were made.

The enclosed table is consistent with the findings in SECY-15-0122, "Summary findings Resulting From the Staff Review of the 2015 Decommissioning Funding Status Reports for Operating Power Reactor Licensees," dated September 28, 2015 (ADAMS Accession No. ML15237A369).

If you have any questions on this matter, please contact your licensing project manager.

Sincerely,

Handwritten signature of Meena K. Khanna in black ink, followed by the initials "FKR" to the right.

Meena K. Khanna, Chief  
Plant Licensing IV-2 and Decommissioning  
Transition Branch  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation
