

March 31, 2016

The Honorable Steve Bullock
Governor of Montana
Helena, MT 59620-0801

Dear Governor Bullock:

In 1976, the U.S. Nuclear Regulatory Commission (NRC) adopted a recommendation from several State organizations, including the National Governors Association, that each State appoint a single person to act as a liaison to the NRC to help improve Federal/State cooperation. The NRC looks to the Governor-appointed State Liaison Officer to be the primary communication channel between the State and the NRC. The State Liaison Officer serves as the key person in the State to keep the Governor and other State agencies informed about issues under the NRC's jurisdiction (specifically matters addressing nuclear regulation, nuclear security, nuclear emergency preparedness, and radiological public health and safety) and to provide the NRC with State information on particular nuclear safety, security, and environmental issues.

I am writing to request the continued participation of the State of Montana in the NRC's State Liaison Officer program. It is my understanding that the most recent State Liaison Officer, Mr. Bradley Livingston, has been replaced by Ms. Delila Bruno, Administrator of the Disaster and Emergency Services Division in the Montana Department of Military Affairs. The NRC will continue to work with Ms. Bruno to keep you informed of our programs and activities; however, to ensure continued clear communication between the NRC and the State of Montana, I would appreciate your written affirmation of Ms. Bruno, or another individual as your selected appointee as State Liaison Officer for the State of Montana.

I am providing you with a copy of the NRC brochure entitled, "State Liaison Officer Program," which provides background information on, and describes the role of, the State Liaison Officer. I am also enclosing a copy of the NRC "2015-2016 Information Digest," which provides information describing the NRC's mission and its regulatory programs.

If you or your staff have any questions concerning this correspondence or wish to obtain additional information about the State Liaison Officer program, please contact Mr. Daniel Collins, Director, Division of Material Safety, State, Tribal, and Rulemaking Programs, Office of Nuclear Material Safety and Safeguards, at (301) 415-3340 or by e-mail at Daniel.Collins@nrc.gov.

-2-

I thank you in advance for your assistance. The Commission looks forward to the continued participation by the State of Montana in the NRC's State Liaison Officer program.

Sincerely,

/RA/

Stephen G. Burns
