Clarification Call on response to Monticello Exemption Request RAI-2

SUMMARY

Participants:

- Glenn Adams (Xcel Energy)
- Gene Eckholt (Xcel Energy)
- Dan Bauer (Xcel Energy)
- Don Shaw (Areva TN)
- Raheel Haroon (Areva TN)
- Christian Jacobs (NRC)
- Al Csontos (NRC)
- Darrell Dunn (NRC)
- Jason Piotter (NRC)
- David Tang (NRC)

Continue on Page 2

ACTION REQUIRED (IF ANY)

The applicant (Xcel Energy) will provide a supplemental response to RAI-2. The applicant and NRC PM agreed to follow-up before the end of the week (ending 2/26/16) to determine the schedule of when the supplemental information would be received.

CONVERSATION RECORD (continued)

SUMMARY: (Continued from page 1)

A clarification call was requested on February 22, 2016, by NRC staff regarding the response to Monticello Exemption Request RAI-2. This conference call was held on February 23, 2016, between representatives from NRC, Xcel Energy and Areva, Inc. The NRC staff requested that the applicant (Xcel) provide clarification to the applicant's response to RAI-2. Specifically, NRC staff asked Xcel to cite where calculations could be found to support the response to RAI-2. Xcel indicated that they would need to review the computer runs to see if the information existed, and if not, they would need to provide additional calculations to support the data for the Summary of Load Cases and Results included in Table 6 of Calculation No. 11042-0205. NRC staff requested that a supplemental response be provided to RAI-2, which would include the data package. Additionally, NRC staff mentioned that language in the Executive Summary from the applicant's submittal may also need to be revised or modified to match the newly (yet to be provided) data. The applicant was uncertain of how much time would be needed to gather the supplemental response material to RAI-2, but believed the information could be retrieved or re-calculated within a day or two from this call. The call ended with the applicant and NRC PM agreeing to follow-up on the timing of the response, and that the follow-up would occur before the end of the week ending 2/26/16.
