E-MAIL ADDRESS msriniva@wayne.edu		TELEPHONE NUMBER (313) 577-1200	<input type="checkbox"/> E-MAIL	<input type="checkbox"/> INCOMING
ORGANIZATION Wayne State University		DOCKET NUMBER(S) 030-33995	<input checked="" type="checkbox"/> TELEPHONE	<input checked="" type="checkbox"/> OUTGOING
LICENSE NUMBER(S) 21-00741-14		CONTROL NUMBER(S) 588960		

SUBJECT
Confirming information during the review of the renewal application

SUMMARY AND ACTION REQUIRED (IF ANY)

- Ms. Srinivasan stated that there have been no changes in the locations of use currently listed on the license (Amendment No. 06)
- Ms. Srinivasan stated that the licensee would like to keep the possession limits listed in the current license the same. The activities listed in the renewal application were the original activities. Based on the decay, the current activities are below the authorized possession limits in Amendment No. 06.
- In the renewal application, the licensee provided that licensed materials are currently in storage, the licensee has registered its licensed materials with the National Nuclear Security Administration (NNSA) for disposal, and the licensee does not plan to use its licensed material. Ms. Srinivasan confirmed the above. The reviewer provided that the primary program code will be changed to 3800, the renewal license will change to authorize for possession and storage only with intent to dispose and the license's term will be 2 years. If the licensee plans to use its licensed material, the license must be amended before any uses.
- Ms. Srinivasan agreed to remove Kenneth V. Honn, Ph.D. from the license because the license will be authorized for storage only and not use.

I confirmed that the above is true.

Licensee's representative signature, name, and title.
