Charlotte, NC 28201-1006

SUBJECT: WILLIAM STATES LEE III NUCLEAR STATION, UNITS 1 AND 2 COMBINED
LICENSE APPLICATION REVIEW SCHEDULE REVISION

Dear Mr. Fallon:

The purpose of this letter is to revise the safety review schedule for the William States Lee III Nuclear Station Units 1 and 2 combined license application as outlined in the enclosed table. By letter dated December 12, 2007, as supplemented by letters dated January 28 and February 6, 2008, and February 25, 2009, Duke Energy Carolinas, LLC (Duke) submitted its application to the U.S. Nuclear Regulatory Commission (NRC) for a combined license (COL) for two AP1000 advanced passive pressurized water reactors in accordance with the requirements contained in Part 52 of Title 10 of the *Code of Federal Regulations*, "Licenses, Certifications and Approvals for Nuclear Power Plants."

This schedule is contingent upon the resolution of the five generic issues still under review by the staff on the Levy docket. The Advisory Committee on Reactor Safeguards (ACRS) meetings on these matters are currently scheduled for the dates provided below:

- ACRS subcommittee meeting on April 5, 2016
- ACRS full committee meeting on April 7, 2016

The enclosed schedule is a summary of the revised major public milestones for the Lee Nuclear Station COL safety review. Should you have any questions regarding the environmental review, please contact Patricia Vokoun at (301) 415-3470, or via e-mail to Patricia.Vokoun@nrc.gov. If you have any questions regarding the safety review, please contact Brian Hughes at 301-415-6582, or via e-mail to Brian.Hughes@nrc.gov.

Sincerely,

/RA/

Francis M. Akstulewicz, Director
Division of New Reactor Licensing
Office of New Reactors
