Division of Security Policy
Office of Nuclear Security and Incident Response

SUBJECT: SUMMARY - CLOSED MEETING WITH THE NUCLEAR
REGULATORY COMMISSION AND NUCLEAR ENERGY
INSTITUTE REGARDING USE OF EARLY WARNING SYSTEMS
AT NUCLEAR POWER REACTOR FACILITIES

On February 24, 2016, a closed meeting was held between the U.S. Nuclear Regulatory Commission (NRC) and representatives of the Nuclear Energy Institute (NEI) at NRC Headquarters, Three White Flint North, 11601 Landsdown Street, Rockville, Maryland.

The NRC staff provided a closed meeting notice on February 18, 2016 (Agencywide Documents and Access Management System Accession No. ML16049A038).

The purpose of the closed meeting was for NRC and NEI to discuss the use of early warning systems as a component of a Nuclear Power Reactor licensee's physical protection program.

The discussion of early warning systems contained safeguards information.

The meeting was kicked off with opening remarks by the NRC staff followed by instructions to the attendees regarding the protection of Safeguards Information during the conduct of this meeting.

Discussion topics included the use of early warning systems as an enhancement to a licensee's physical protection program; the use of early warning systems to meet Commission requirements; the types of information/descriptions that should be addressed in NRC-approved
