Subject: Request for Revision to 2015 Report of Exempt Distribution; Siemens Industry, Inc.; License No. 29-08864-04E
Date: Thursday, February 25, 2016 4:32:00 PM
Attachments: [RIS 2014-10 Exempt Distribution.pdf](#)

Dear Mr. Lee,

I've reviewed your exempt distribution report dated January 29, 2016 for the 2015 reporting period.

Please revise and resubmit your report to indicate that the products were transferred for use under 10 CFR 30.20 as required by 10 CFR 32.29(c)(2). Also, you have based your reporting on the maximum amount of radioactive material that could be contained in each product. The reporting requirements in 10 CFR 32.29(c) concern the *actual* quantities of radioactive material in products that were distributed rather than the maximum that *could* be distributed. In the revision to your report, please indicate the actual quantities of radioactive material that were distributed in your products. Further information about the requirements that apply to annual reports of exempt distribution can be found in the attached Regulatory Issue Summary.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution
Director, Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390 (b)(1).

If you have any questions, please feel free to contact me.

Regards,
Eric
