NRC STAFF'S 49<sup>th</sup> STATUS REPORT  
IN RESPONSE TO THE ATOMIC SAFETY AND  
LICENSING BOARD'S ORDER OF FEBRUARY 16, 2012

In accordance with the Atomic Safety and Licensing Board's ("Board") "Order (Granting NRC Staff's Unopposed Time Extension Motion and Directing Filing of Status Updates)" ("Order"), issued on February 16, 2012, the NRC Staff ("Staff") herewith provides its 49<sup>th</sup> monthly status report to the Board.

Safety Issues

1. Track 2 Safety Issues. Hearings on the three "Track 2" safety contentions related to the License Renewal Application ("LRA") for Indian Point Units 2 and 3 ("IP2" and "IP3") were held on November 16-19, 2015. On February 5, 2016, the State of New York ("New York") filed a motion seeking the late admission of six documents as exhibits related to the Track 2 contentions; answers to that motion were filed on February 16, 2016.<sup>1</sup> On February 19, 2016, the Board granted New York's Motion, conditioned upon its filing of expert testimony demonstrating the relevance, materiality and reliability of the proposed exhibits by March 4,

2016; responsive testimony is to be filed by Entergy and the Staff by March 18, 2016; New York's reply testimony is to be filed by March 25, 2016.<sup>2</sup> The Board suspended the schedule for filing proposed findings of fact and conclusions of law, and stated that the evidentiary record will be closed 10 days after its receipt of the above filings.<sup>3</sup>

2. Other Safety Issues. There has been no change in this item since the Staff filed its previous status report. The Staff is reviewing issues associated with two recent Interim Staff Guidance ("ISG") documents (LR-ISG-2012-02 and LR-ISG-2013-01).<sup>4</sup> The Staff has not yet determined whether these matters will be addressed in an SER Supplement; the Staff will provide further information to the Board regarding these issues when available.

### Environmental Issues

3. FSEIS Supplement. There has been no change in this item since the Staff filed its previous status report. On December 22, 2015, the Staff issued its draft second supplement (Volume 5)<sup>5</sup> to the Final Supplemental Environmental Impact Statement ("FSEIS") for license

renewal of IP2 and IP3. Public comments on Draft FSEIS Supplement 2 are due on March 4, 2016;<sup>6</sup> the Staff expects to issue Final FSEIS Supplement 2 in September 2016.<sup>7</sup>

4. Contention NYS-35/36. There has been no change in this item since the Staff filed its previous status report. On July 14, 2011, the Board issued LBP-11-17, granting summary disposition on Contention NYS-35/36 (Implementation of Cost-Beneficial SAMAs) in favor of New York.<sup>8</sup> On February 18, 2015, the Commission granted the Staff and Entergy's petitions for review of the Board's rulings on Contention NYS-35/36, and instructed the Staff to respond to four questions.<sup>9</sup> As required, the Staff filed its response on March 30, 2015; replies were filed by Entergy and New York on May 11, 2015.

5. Contention NYS-40. In May 2013, the Applicant submitted a letter to the Staff (NL-13-075), reporting the results of its completed engineering project cost estimates for severe accident mitigation alternatives ("SAMAs") that previously had been identified as potentially cost-beneficial.<sup>10</sup> The Applicant noted that it was submitting the information "to support resolution of certain issues identified" in LBP-11-17 concerning Contention NYS-35/36. The Staff presented its evaluation of this information in Draft FSEIS Supplement 2, issued on December 22, 2015. On February 22, 2016, New York filed a motion for leave to file new Contention NYS-40, purportedly based on the Staff's Draft FSEIS evaluation of Entergy's

engineering project cost estimates;<sup>11</sup> answers to New York's new contention are due March 18, 2016.

6. Contention NYS-12C (SAMAs). There has been no change in this item since the Staff filed its previous status report. On February 14, 2014, New York filed a petition for Commission review of the Board's decision in LBP-13-13,<sup>12</sup> concerning its resolution of Contention NYS-12C;<sup>13</sup> on April 28, 2014, New York filed a petition for review of the Board's Order denying its motion to reopen and reconsider that decision.<sup>14</sup> On February 18, 2015, the Commission granted New York's petition for review and directed the parties to respond to eight related questions.<sup>15</sup> In accordance with the Commission's Order, initial briefs were filed by the Staff, Entergy, New York, and the State of Connecticut on March 30, 2015; reply briefs were filed by the Staff, Entergy and New York on April 29, 2015.

7. CZMA Issues. To the best of the Staff's knowledge, information and belief, the current status of CZMA-related issues is as follows.

<sup>13</sup> "State of New York Petition for Review of Atomic Safety and Licensing Board Decision LBP-13-13 With Respect to Consolidated Contention NYS-12C" (Feb. 14, 2014). On March 9, 2015, the Commission issued a Memorandum and Order resolving the Staff's, Entergy's and Hudson River Sloop Clearwater's petitions for review of other portions of LBP-13-13. See *Entergy Nuclear Operations, Inc.* (Indian Point Nuclear Generating Units 2 and 3), CLI-15-6, 81 NRC 340 (2015) (reversing the Board's resolution of Contention NYS-8 (Transformers), and reversing in part, and affirming in part, its resolution of Contention CW-EC3A (Environmental Justice)).

<sup>14</sup> See (1) "State of New York Petition for Review of Atomic Safety and Licensing Board's April 1, 2014 Decision Denying the State's Motion to Reopen the Record and for Reconsideration of the Board's November 27, 2013 Partial Initial Decision Concerning Consolidated Contention NYS-12C" (Apr. 28, 2014); (2) "Order (Denying New York's Motion to Reopen the Record; Setting Deadline for New or Amended Contention)" (Apr. 1, 2014).

<sup>15</sup> *Entergy Nuclear Operations, Inc.* (Indian Point Nuclear Generating Units 2 and 3), CLI-15-2, 81 NRC 213 (Feb. 18, 2015).

(a) *Previous Reviews.* On June 12, 2013, the Board denied the Applicant's and New York's motions seeking the entry of a declaratory order regarding Entergy's claim that New York had previously conducted a review of IP2/IP3 for consistency with the New York State Coastal Management Program ("CMP"), such that no further review is required under the Coastal Zone Management Act ("CZMA").<sup>16</sup> The Board left open the possibility that the motions might be re-filed after consultations between the Staff and New York pursuant to 15 C.F.R. § 930.51(e). The Staff engaged in a series of consultations with the New York State Department of State ("NYSDOS") and the Applicant in 2013 and 2014.

(b) *Grandfathering.* On December 11, 2014, the State of New York Supreme Court, Appellate Division, Third Judicial Department, reversed the Supreme Court's December 2013 decision, and held (in a 5-0 decision) that Indian Point Units 2 and 3 were "grandfathered" under New York's CMP and are therefore exempt from consistency review.<sup>17</sup> On June 4, 2015, the Court of Appeals granted New York's motion for leave to appeal; Entergy has responded to New York's appeal, and on February 16, 2016, New York filed its reply to Entergy's brief. Oral argument is expected later this year.

(c) *2012 Consistency Certification.* On December 17, 2012, Entergy filed a certification with the NYSDOS, asserting that license renewal of IP2/IP3 is consistent with the New York CMP; on November 5, 2014, Entergy withdrew that consistency determination, subject to its resubmittal following issuance of the Staff's Final FSEIS Supplement.<sup>18</sup> On November 21,

<sup>17</sup> *Entergy Nuclear Operation, Inc. v. New York State Department of State*, 518510, 999 N.Y.S.2d 207, 2014 N.Y. App. Div. LEXIS 8686; 2014 NY Slip Op 08702 (App. Div. 3d Dep't, Dec. 11, 2014), *rev'g* 42 Misc. 3d 896, 976 N.Y.S.2d 650 (Sup. Ct. 2013).

<sup>18</sup> See Letter from John Sipos to the Board (Nov. 6, 2014), attaching letter from Fred Dacimo (Entergy) to NRC Document Control Desk and Linda M. Baldwin, Esq. (NYSDOS), NL 14 140 ("Withdrawal of December 17, 2012 Coastal Zone Management Act Consistency Certification") (Nov. 5, 2014) (ADAMS Accession No. ML14310A346).

2014, NYSDOS rejected Entergy's withdrawal of its consistency certification,<sup>19</sup> and on November 6, 2015, NYSDOS issued its consistency determination, finding that license renewal of Indian Point Units 2 and 3 is not consistent with the New York CMP.<sup>20</sup> The U.S. Department of Commerce has extended the time for Entergy to appeal from NYSDOS's determination until 60 days after issuance of the Court of Appeals' final order on New York's grandfathering appeal.<sup>21</sup> On January 14, 2016, Entergy filed an action against the New York Secretary of State in the U.S. District Court for the Northern District of New York (Case 1:16-cv-00051-LEK-DJS), asserting that NYSDOS's November 6, 2015 determination was based on nuclear safety concerns, intrudes on the NRC's exclusive regulatory authority over such matters, and is preempted by the Atomic Energy Act.

8. Other Matters. The Staff is not currently aware of any other matter that has the potential to impact the schedule for hearings in this proceeding. In accordance with the Board's direction (Order, at 2), the Staff will notify the Board as soon as any other event with potential to alter the hearing schedule arises.
