Subject: [External_Sender] RE: License Amendment Application & Issued Previous License

Joanne,

I could not find a specific letter referencing to remove the breakout of ferrous and/or non-ferrous, dry active material, or liquid waste.

That being said, we would prefer the statement in the application (below) without a break out of waste type in pounds.

6) Description of the Material (10 CFR 110.32(f)(1 and 5))

The material imported consists of up to 10,000 tons of radioactively contaminated material that includes both metals and dry activity waste (DAW) material such as wood, paper, resins, plastic, etc.

However, if we must break it out, please use the following breakout:

- 5,000 tons of ferrous and/or non-ferrous metals
- 3,500 tons of dry activity material (e.g., wood, paper, and/or plastic, etc.)
- 1,500 tons of liquids (e.g., aqueous and organic based fluids)

Thank you and let me know if you need any additional information.

Subject: License Amendment Application & Issued Previous License

Good Evening Duane,
Per our conversation, attached is your current license application for amendment IW017/03 and your previous issued export license IW017/02.

Thank You,

Joanne
