General Comment

Please see that the following items are included in your new regulations re decommissioning our nation's nuclear power plants: that decommissioning funds be used exclusively for radiological cleanup, not operating expenses or lobbying, That the parent corporations must not be allowed to escape responsibility for financial shortfalls in the decommissioning fund, and that the Emergency Planning Zones should not be diminished, nor insurance coverage reduced, until all the spent fuel rods have been removed from the highly vulnerable spent fuel pools and put into safer dry cask storage.
