

Robert J. Lewis is the Assistant for Operation and is responsible for assisting the Executive Director for Operations (EDO) to implement the EDO responsibilities as the chief operating and administrative officer of the U.S. Nuclear Regulatory Commission, and assisting to advance the strategic priorities the EDO has set for the agency. His responsibilities include providing the day-to-day supervision, guidance, and direction to the Office of the Executive Director for Operations (OEDO) staff responsible for Communications, Performance Management, Administration, and the Executive Assistants who are the liaison with the Regions and Technical and Corporate Management Offices. Additionally, Mr. Lewis is the agency's Performance Improvement Officer, responsible for supporting the Chief Operating Officer (the EDO) in leading performance improvement efforts across the agency.

Mr. Lewis joined the U.S. Nuclear Regulatory Commission (NRC) in 1992 as a nuclear engineer in the Division of Waste Management, Office of Nuclear Material Safety and Safeguards (NMSS), and also worked in NMSS' Division of Fuel Cycle Safety and Safeguards and the Spent Fuel Project Office. In 2007, he was selected for the Senior Executive Service (SES), in the position of Deputy Director, Division of Materials Safety and State Agreements, Office of Federal and State Materials and Environmental Management Programs (FSME), and in 2008 was appointed Director, Division of Materials Safety and State Agreements. From 2011 – 2016, he served as the Director, Division of Preparedness and Response, Office of Nuclear Security and Incident Response.

Mr. Lewis received a bachelor's degree in physics from the State University of New York at Fredonia and a master's degree in nuclear engineering from the University of Arizona. He is a graduate of NRC's SES Candidate Development Program and the U.S. Department of Homeland Security, Center for Homeland Defense and Security, Executive Leaders Program.
