## General Comment

This nuclear power plant needs to be SHUT DOWN IMMEDIATELY, not re-licensed beyond its capacity.

Let's talk bluntly, there is a cancer epidemic near this nuclear power plant, it is currently leaking high levels of uncontrollable radiation into the Hudson River. Entergy is lying, as they usually do.

At this point, re licensing this plant would make the NRC a party to premeditated murder.

It is murder to allow this nuclear power plant to be relicensed.

The NRC ought to be demanding that Entergy be putting money into resolving the harm they cause, not allowing them to cause more death and destruction.

THE FACTS ARE: There is NO safe level of radiation, as shown time and again by REAL scientists who care about our planet.

The "limits" have been made up as conjecture based on greed and avarice and have nothing to do with real science.

INDIAN POINT NEEDS TO BE SHUT DOWN IMMEDIATELY. PERIOD. ANYTHING ELSE IS WILLFUL NEGLIGENCE AND INTENTIONAL DISREGARD FOR HUMAN LIFE.

Re licensing this plant is Anti American and an blatant act of terrorism. It IS terrorism to allow radiation to be constantly leaked into the Hudson River, terrorizing people for generations and killing all life along the
