Hi Mark,

This message acknowledges receipt of both of Terry Alexander's letters from The Regents of the University of Michigan, dated February 24, 2016, in response to the U.S. Nuclear Regulatory Commission's (NRC) letter dated January 29, 2016, transmitting Notices of Violation. In Terry Alexander's letters, he identifies the corrective actions that the university has taken or plans to take to address the violations. In addition, this message acknowledges receipt of both of your letters from The Regents of the University of Michigan, dated March 4, 2016, in response to the U.S. Nuclear Regulatory Commission's (NRC) verbal request to provide additional information to supplement the information in Terry Alexander's aforementioned letters. The NRC has reviewed the corrective actions, which appear to be adequate, and has no further questions at this time. The actions The Regents of the University of Michigan has taken and plans to take to address the violations will be examined during a future inspection.

In accordance with Title 10 of the *Code of Federal Regulations* 2.390 of the NRC's "Rules of Practice," a copy of this message will be available electronically for public inspection in the NRC's Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC's website at <http://www.nrc.gov/reading-rm/adams.html>.

Please feel free to contact me if you have any questions regarding this correspondence. I can be reached at 630-829-9823.

Regards,  
Bob Gattone
