2015 Exempt Distribution Transfer Report for MS Sedco Inc. (13-26301-02E)

As per 10 CFR 32.16(a)(2), we are required to submit a report detailing product transferred to other persons from our facility every year. Therefore please let this letter serve as our report by noting the following information:

These products are transferred for use under 10 CFR 30.15(a)(7).

All units transferred from our facility which contain byproduct material have been in the form of a finished product. This product is a Smoke Detector with Integral Door Holder/Release Mechanism. It is an NRC Registered Device (# NR-782-D-101-E) and contains 0.9uCi of Americium-241.

The total number of units shipped from 01-01-2015 through 12-31-2015 is 536 pieces. The total amount of Americium-241 would therefore be $(536 \times 0.9\text{uCi}) = 482.4\text{uCi}$.

We trust you will find the enclosed information adequate for the intended purpose. If you need any additional information, you may contact me at (317) 842-2545.

Sincerely,

Brian Christopher
