Docket No. STN 50-498 and STN 50-499  
Voluntary Response to Regulatory Issue Summary (RIS) 2015-16 Revision 1,  
Planned Licensing Action Submittals for all Power Reactor Licensees

Regulatory Issue Summary (RIS) 2015-16 Revision 1, Planned Licensing Action Submittals for all Power Reactor Licensees, dated January 15, 2016, requested licensees to provide information regarding the licensing actions that are planned to be submitted to the NRC staff for review over the next 2 calendar years and power uprate applications planned over the next 5 years.

The requested information is strictly voluntary. The NRC staff plans to use the information in allocating its resources for licensing reviews.

STP Nuclear Operating Company (STPNOC) is providing a listing of planned licensing actions over the next 2 years for the South Texas Project (STP) Units 1 and 2.

The enclosure reflects the current target dates for the STPNOC submittals. These target dates are subject to change. Also, operational considerations may result in the addition of licensing actions that are not currently itemized in the attachment.

As requested in RIS 2015-16 Revision 1, a copy of this letter and the attachment are being provided to [NRC\\_LicensingSurvey@NRC.gov](mailto:NRC_LicensingSurvey@NRC.gov).

There are no commitments in this letter.

Should you need further information regarding this submittal, please contact Lance Sterling at (361) 972-7887.
