John

NextEra has reviewed your request to release UFSAR Chapter 3 Revisions 12 – 16 and concurs that the written text and figures can be made available to the public. NextEra requests the drawings with unique NextEra identification be withheld from the public due to the potential security sensitive information.

Mike

Subject: For Your Review - Chapter 3 Files for Seabrook FSAR Revisions 13 through 16
Importance: High

Mike,

I performed a Sensitive Unclassified Non-Safeguards Information (SUNSI) review of the Chapter 3, “Design of Structures, Components, Equipment and Systems,” of the Seabrook Updated Final Safety Analysis Report (UFSAR) revisions 13 through 16. I **did not** find any security-related information and/or proprietary information and/or privacy act information in the attached Chapter 3 files that I reviewed.

“SUNSI” means any information of which the loss, misuse, modification, or unauthorized access can reasonably be foreseen to harm the public interest, the commercial or financial interests of the entity or individual to whom the information pertains, the conduct of NRC and Federal programs, or the personal privacy of individuals.

The various categories of SUNSI have been organized into the following seven groups: (1) Allegation information, (2) Investigation information, (3) Security-related information, (4) Proprietary information, (5) Privacy Act information, (6)

Federal-, State-, foreign government-, and international agency-controlled information, and (7) Sensitive internal information.

The Seabrook UFSAR does not contain any information in groups (1), (2), (6), and (7).

Since NextEra is the owner of the UFSAR information, please review the attached referenced Chapter 3 files for the Seabrook UFSAR revisions 13 through 16 to determine if it contains any security-related information and/or proprietary information and/or privacy act information.

Please let me know if you agree or disagree with my attached SUNSI review by the close of business on Friday, **February 26, 2016**.

Thanks.
John
