Attn: Tammy Tomczak, Licensing Assistant
Materials Licensing Branch
2443 Warrenville Road
Lisle, IL 60532-4352

Dear Ms. Tomczak:

In accordance with the letter dated February 8, 2016 from Patricia Pelke of your office, we have reviewed the information requested and determined that:

1. Radioactive Materials License 24-00513-39 lists 1513 Research Park Drive, Columbia Missouri as our primary location of use. This is correct and is in fact the only location of use of radioactive materials we perform under this license.
2. In accordance with item one above, no changes are necessary regarding the location of use as listed on our license.

I hope this information is sufficient to close out this inquiry regarding locations of use of radioactive materials for NRC Radioactive Materials License 24-00513-39. Should you require additional information, please do not hesitate to contact me.

Sincerely,

Ronald J. Dobey, Jr.
Radiation Safety Officer
University of Missouri-Research Reactor
