Re: Docket No. NRC-2015-0070

Please ensure that your new regulations for the permanent shutdown of U.S. nuclear power plants include:

1. Funds will be used only to clean-up radiation hazards - not lobbying or expenses.
2. Parent corporations are not allowed to avoid responsibility for any shortfalls of funds

for decommissioning.

3. Maintenance of Emergency Planning Zones + insurance coverage until all spent fuel rods are removed from pools + placed in safer dry cask storage.

This is a process I welcome and hope it will include the above safeguards.

Sincerely  
Guy B. Stroock
