Subject: SAR Request

While working on your request to renew Certificate of Compliance 71-9337, I discovered that information was missing from your safety analysis report (SAR).

When you submitted Rev. 4 to the SAR in September, 2012, step 5 of Section 8.2.3.2 was split between pages 8-7 and 8-8 (ML12250A456). When Rev. 5 to the SAR was submitted in April, 2015 (ML15198A083), step 5 was removed from page 8-7. However, page 8-8 was not updated to incorporate the information removed from page 8-7.

Please respond to this e-mail and provide an updated page 8-8 either by submitting a page change or a complete SAR.

Thanks, Chris Allen
