The following chart identifies the outstanding required changes that have been addressed in these adopted rules in order for the Texas Department of State Health Services (DSHS) to meet NRC compatibility.

Rats ID	NRC Title	State Section
N/A	Public Notification and Public Participation	§289.202
2007-2	Exemptions from Licensing, General Licenses, and Distribution of Byproduct Material: Licensing and Reporting Requirements	§289.251
2007-3	Requirements for Expanded Definition of Byproduct Material	§289.251
2011-2	Licenses, Certifications, and Approvals for Materials Licensees	§289.252 §289.253
2012-4	Requirements for Distribution of Byproduct Material	§289.251 §289.252
2013-1	Physical Protection of Byproduct Material	§289.201 §289.252 §289.257
2013-2	Distribution of Source Material to Exempt Persons and to General Licensees and Revision of General License and Exemptions	§289.201 §289.251 §289.252
2015-1	Domestic Licensing of Special Nuclear Material – Written Reports and Clarifying Amendments	§289.252
2015-2	Safeguards Information - Modified Handling Categorization, Change for Materials Facilities	§289.252

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure SA-200, with the exception of the items noted in NRC's letter to us dated February 8, 2016. Those items will be addressed in future rulemaking.
