RE: Application for Material License Renewal – **Additional Information Requested**
Docket: 030-17516
License: 50-19380-01

Dear Ms. Cook,

Per your request for additional information, below are the answers to the 4 questions.

1. Ryan J. McCormick, RSO – business cellular telephone number is 1-907-223-7882.
2. We currently have 11ea. Troxler 3440 series Moisture Density Gauges and 2ea. Troxler 3241-C Asphalt Content Gauges, we would like to maintain our current gauge capacity of 16ea. gauges.

3. A/B. Operation and Emergency procedures:

We will implement and maintain the operation, emergency, and security procedures described in the errata sheet in Appendix H of NUREG-1556, Vol. 1, dated November 2001, and provided copies of these procedures to all gauges user, before their first use of licensed material, and at job site.

4. 10 CFR 30.34(i) – 2 independent physical controls.

R&M has implemented for many years the 2 independent physical control requirement. All R&M storage areas have 2 independent physical controls (double doors with locks at main laboratory) and the use of 2 independent chains with locks to secure gauge to vehicles for transport.

Sincerely,

R&M CONSULTANTS, INC.

Ryan J. McCormick
Supervising Laboratory Technician, Radiation Safety Officer
