

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

April 4, 2016

Ms. Jenny Goodman, Manager
Bureau of Environmental Radiation
New Jersey Department of Environmental Protection
P.O. Box 420, Mail Code 25-01
Trenton, NJ 08625-0420

Dear Ms. Goodman:

We have reviewed the final revisions to New Jersey Radiation Protection Rules, received by our office on March 9, 2016. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and the requirements of the seven amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on April 1, 2016.

As a result of our review, we have one comment that has been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that if these regulations are revised, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when you revise your regulations to address our comments, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the location of any changes made by New Jersey, in response to our comments, and provide a copy to Division of Material Safety, State, Tribal, and Rulemaking Programs, NMSS.

The SRS Data Sheet summarizes our knowledge of the status of other New Jersey regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

COMPATIBILITY COMMENT ON NEW JERSEY FINAL REGULATIONS

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
1	7:28-1.6(f)		N/A		<p>In 7:28-1.6(f) there are three sets of requirements referenced:</p> <ol style="list-style-type: none"> 1) “the requirements of the provisions incorporated by reference from the CFR”, 2) “the rules set forth in this chapter”, and 3) “the provisions of the CFR”. <p>The burden of identifying inconsistencies and duplications between these requirements and determining which set of requirements prevail is placed on the licensee, which is likely to cause confusion and misinterpretations. This approach of requiring the licensee to identify inconsistencies and duplications between these authorities, and then to determine which requirement to apply is not compatible with NRC regulations.</p> <p>Additionally, the final sentence in 7:28-1.6(f) says that the provisions of the CFR prevail, for compatibility category A or B regulations, in the event of inconsistencies or duplications. This can be interpreted to mean that, for compatibility category A or B regulations, the provisions of the CFR will prevail for any NJ regulation that incorporates the CFR by reference with modifications, thereby negating the necessary modifications for compatible NJ regulations.</p> <p>NJ needs to address the comments above on 7:28-1.6(f) in order to be compatible with NRC regulations.</p>
