Janine

Thank you. I have posted the inspection report in the hot lab and also a copy in the NRC book. You know how I love duplicate copies.

Where you able to possibly expedite the addition of Barret Hospital in Dillon, MT to the license? (tentative "Go Live" date of 4/27)

Thanks for your time

All,

Thanks to everyone that provided their time during the routine, unannounced NRC inspection that was conducted on February 24, 2016, at your facilities in Kalispell, Montana. As discussed during the final exit briefing conducted on March 11, 2016, the attached NRC Inspection Report (NRC Form 591M) 030-09152/2016-001 presents the results of the inspection. No violations were identified. This Inspection Report does not require you to take any action and you are not required to sign it or return it. I do however request a courtesy email response acknowledging receipt.

Also thank you for providing letter dated March 11, 2016, indicating that the Varian GammaMedplus iX HDR unit is in secure storage and will not receive radioactive material until such time as you submit an amendment request for, and NRC authorizes this activity, adds a qualified Authorized User and an Authorized Medical Physicist to the license, and approves the location of use.

Thank you and please let me know if you have any questions.

Regards,

## Janine
