General Comment

I am writing to urge your decisions to include these points:

- 1) the decommissioning funds must be used exclusively for radiological cleanup, NOT FOR OPERATING EXPENSES OR LOBBYING.
- 2) the parent corporations must not be allowed to escape their responsibility for financial shortfalls in the decommissioning fund.
- 3) Emergency Planning Zones should not be diminished nor insurance coverage reduced, until all the spent fuel rods have been removed.

These points are critical to the communities surrounding nuclear plants and to the general public for 1000's of years. We must never lose sight of the fact that the HALF-LIFE of the plutonium in the fuel rods in the storage pools is 24,000 years, a very very long time.
