Date: Friday, March 04, 2016 8:45:00 AM

Hello Sandra,

Thank you for the information. I look forward to receiving the revised report soon.

Regards,
Eric

Dear Eric,

Actually Motti was assisted by the International Radiation Safety Consulting, Inc. on how to prepare this report. They actually made the mistake on showing Motti how to prepare. I am sending a revised report today.

Thank you,

Sandra Fitchett

To: "motti@campco.com" <motti@campco.com>

Dear Mr. Slodowitz,

I've reviewed your revised exempt distribution report dated February 4, 2016 for the 2015 reporting period.

Your report indicates that the total activity distributed was 265.29 Ci of H-3. However, from your report it seems that if one multiplies the number of units of each model transferred by the amount of H-3 in each model and adds these numbers, the total radioactivity distributed would be 50.343 Ci as shown in the following table:

Model	Quantity of H-3 in each model [mCi]	Total number of units transferred	Quantity of H-3 transferred [mCi]
UZI-001	10	893	8930
SWW-1 2T	10	671	6710
SWW-88	19	162	3078

SWW-357	19	860	16340
SWW-450	19	235	4465
SWW-900	10	713	7130
SWW-1	10	107	1070
864T			
SWW-GRH-1	10	262	2620
	Total:	3903	50343

Please explain this apparent discrepancy and, if necessary, revise and resubmit your report to address this issue.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution
 Director, Office of Nuclear Material Safety and Safeguards
 U.S. Nuclear Regulatory Commission
 Washington, DC 20555-0001

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390 (b)(1).

If you have any questions, please feel free to contact me.

Regards,
 Eric
