MEMORANDUM TO: Kenneth T. Erwin, Chief
Environmental and Technical Support Branch
Division of Site Safety and Environmental Analysis
Office of New Reactor

FROM: Jack S. Cushing, Senior Project Manager */RA/*
Environmental and Technical Support Branch
Division of Site Safety and Environmental Analysis
Office of New Reactor

SUBJECT: UPDATE TO THE OFFICE OF NEW REACTOR ENVIRONMENTAL
REPORT ACCEPTANCE REVIEW TABLES

Enclosed is the update to the Environmental Report Acceptance Review Tables. These tables are used by the Nuclear Regulatory Commission (NRC) staff to document the environmental acceptance review for new reactor applications. These tables are used by the staff when performing their acceptance review for environmental reports for new reactor applications in accordance with NRO-REG-100. Applicants can use these tables to perform their own review of their application before submitting it to the NRC which should result in fewer acceptance review items being identified by the NRC staff.

Enclosure: As stated
