Wright, WY 82732

SUBJECT: COPY OF THE DRAFT ENVIRONMENTAL IMPACT STATEMENT FOR THE RENO CREEK IN SITU RECOVERY PROJECT IN CROOK COUNTY, WYOMING, SUPPLEMENT TO THE GENERIC ENVIRONMENTAL IMPACT STATEMENT FOR IN-SITU LEACH URANIUM MILLING FACILITIES

Dear Librarian:

The U.S. Nuclear Regulatory Commission (NRC) staff is reviewing a source and byproduct materials license application submitted by AUC, LLC, for the construction, operation, aquifer restoration, and decommissioning of the proposed Reno Creek In Situ Recovery (ISR) Project. The facility is proposed to be located in Campbell County, Wyoming.

As part of the review of the application, the NRC staff has prepared a draft Supplemental Environmental Impact Statement (SEIS) (NUREG-1910, Supplement 6). The draft SEIS includes an analysis of relevant environmental issues, including potential impacts on historic and cultural resources, and documents the NRC staff's preliminary determination regarding the environmental impacts from the construction, operation, aquifer restoration, and decommissioning of the Reno Creek ISR Project.

Enclosed is a copy of the draft SEIS for you to keep on your shelves. Please keep a copy of this draft SEIS until at least one year from receipt of this letter. We appreciate your willingness to assist the public in participating in the environmental review process.

If you have any questions or require additional information, please contact Ms. Jill Caverly, Project Manager, by phone at 301-415-7674, or via e-mail at [Jill.Caverly@nrc.gov](mailto:Jill.Caverly@nrc.gov).

Sincerely,
