Thank you for your response to our request for additional information. We still need clarification on the following to complete our review.

Please provide the following clarification of the information you submitted:

**“Delegation of Authority” for the Radiation Safety Officer for Akilah Calhoun**

1. The “Delegation of Authority” for the Radiation Safety Officer for Akilah Calhoun. Did not include a statement that “The RSO is free to raise issues with the U.S. Nuclear Regulatory Commission at any time. Please confirm that Akilah Calhoun understands that as RSO she may raise issues with the U.S. Nuclear Regulatory Commission at any time. Please see the “Notice to Employees, NRC Form 3. A copy of this document may be obtained from the NRC website at <http://www.nrc.gov/reading-rm/doc-collections/forms/nrc3.pdf>.
2. Please specify the number of hours per week the Radiation Safety Officer will be conducting radiation protection activities.

**Authorized Use**

Item 9 in your current license lists Texas Nuclear Models 5190, 5201, and 5202 gauges. However, your response did not list the Texas Nuclear Model 5202 gauges. Do you still wish Texas Nuclear Model 5202 gauges listed on your license? If you had Texas Nuclear Model 5202 gauges in the past, please specify their final disposition and an acknowledgement letter that the Texas Nuclear Model 5202 gauges were received by the disposal company, transferred to another authorized licensee, etc. If you never had any Texas Nuclear Model 5202 gauges and wish this gauge model removed from the license, please state so.

**Radiation Safety Program**

**Survey Instruments**

Your response referenced NUREG-1556, Volume 4 dated August 1998. However, the Volume dated August 1998 was a “draft” guide and not the final guide issued in October 1998. I made “hand corrections” to this item in the documents I faxed to you on January 4, 2016. Please resubmit your response to this item and reference the final guide dated October 1998. For example, “We will use instruments that meet the Criteria in the section entitled “Radiation Safety

Program-Instruments" in NUREG-1556, Volume 4, dated **October 1998**" and each survey meter will be calibrated by the manufacturer or other person authorized by the NRC or an Agreement State to perform survey meter calibrations".

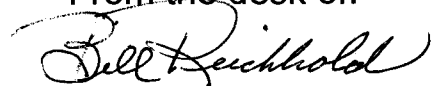

### Operating and Emergency Procedures

Your response referenced NUREG-1556, Volume 4 dated August 1998. However, the Volume dated August 1998 was a "draft" guide and not the final guide issued in October 1998. I made "hand corrections" to this item in the documents I faxed to you on January 4, 2016. Please resubmit your response to this item and reference the final guide dated October 1998. For example, "Operating and emergency procedures will be developed, implemented, maintained, and distributed, and will meet the Criteria in the section entitled "Radiation Safety Program- Operating and Emergency Procedures", in NUREG-1556, Volume 4, dated **October 1998**.

Please send a facsimile (630) 829-9987) of your response to the above within 7 days and state, Response to Control 589421. Please include a cover letter on company letterhead, dated and signed (signed by an individual who is authorized to sign official documents on behalf of the licensee) with your response letter. Please call me at 630-829-9839 if you have any questions.

*In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this facsimile and the attached documents will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).*
