SUBJECT: Status of Funding for Managing Irradiated Fuel For Year Ending December 31,
2015 – 10 CFR 50.82(a)(8)(vii)

Entergy Nuclear Operations, Inc.

Indian Point Nuclear Generating Station 1
Docket No. 50-003
License No. DPR-5

Big Rock Point
Docket No. 50-155
License No. DPR-6

Vermont Yankee
Docket No. 50-271
License No. DPR-28

Dear Sir or Madam:

10 CFR 50.82(a)(8)(vii) requires that after submitting its site-specific decommissioning cost estimate pursuant to 10 CFR 50.82(a)(4)(i), a licensee must annually submit to the NRC, by March 31, a report on the status of its funding for managing irradiated fuel. On behalf of Entergy Nuclear Indian Point 2, LLC, and Entergy Nuclear Palisades, LLC, and Entergy Nuclear Vermont Yankee, LLC, Entergy Nuclear Operations, Inc. hereby submits the information requested for Indian Point 1, Big Rock Point, and Vermont Yankee. All or most of the spent fuel management costs are a liability of the U.S. Government as a result of its breach of the spent fuel disposal contract. However, this report takes no credit for recoveries on that liability.

There are no new commitments made in this letter. If you have any questions, please contact Mr. Guy Davant, Manager, Fleet Licensing Programs at 601-368-5756.

Sincerely,

A handwritten signature in black ink, appearing to be "JFM", written over a white background.

JFM/ghd/ljs

Attachment 1
ENOC-16-00008
(Page 1 of 1)
Entergy Nuclear Operations, Inc.
Status of Funding for Managing Irradiated Fuel – Indian Point 1
For Year Ending December 31, 2015 - 10 CFR 50.82(a)(8)(vii)

Plant Name: **Indian Point Nuclear Generating Unit No. 1**

- | | |
|---|-------------------------------|
| 1. Funds accumulated to cover the cost of managing irradiated fuel as of 12/31/2015 | \$ 169.72 million
[Note 1] |
| 2. Projected costs to manage fuel until DOE removal (2015\$) | \$ 52.61 million |
| 3. Plan as required | See Note 2 |

Note 1: This amount represents the excess funds available in the Unit 1 decommissioning trust fund less an amount necessary to decommission the Independent Spent Fuel Storage Installation (ISFSI). Per Unit 1's updated decommissioning cost analysis, the present value (2015\$) of excess funds in Unit 1's decommissioning trust at the end of decommissioning in 2073, after considering license termination expenses, is \$170.36 million ($\$526.73 \text{ million} / (1.02)^{(2073-2016)}$). See Ending DTF Balance for 2073, Table 12-1, Decommissioning Funding Status Report per 10 CFR §50.75(f)(1) and 10 CFR 50.82(a)(8)(v) -- Entergy Nuclear Operations, Inc., filed March 2016. The estimated cost for decommissioning Indian Point 1 and 2's share of the site ISFSI is \$6.79 million. Of the 53 casks from Indian Point 1 and 2 on the ISFSI, 5 are attributable to Unit 1, or 9.4%. Unit 1's share of ISFSI decommissioning cost is calculated as 9.4% x \$6.79 million, or \$0.64 million. Thus, the present value of Unit 1 trust funds available for spent fuel management is \$170.36 million minus \$0.64 million, or \$169.72 million. For purposes of this report only, Indian Point 1 trust funds are being considered separately from Indian Point 2 trust funds; however, both funds are covered by a single trust agreement, and will likely be handled together upon decommissioning.

Note 2: The excess currently existing in Unit 1's decommissioning trust is sufficient to cover the estimated costs of spent fuel management. The licensee acknowledges the need for an exemption pursuant to 10 CFR §50.12(a) to use radiological decommissioning trust funds for costs other than decommissioning activities as defined in 10 CFR 50.2.

ENOC-16-00008**

(Page 1 of 1)

**Entergy Nuclear Operations, Inc.
Status of Funding for Managing Irradiated Fuel – Big Rock Point
For Year Ending December 31, 2015 - 10 CFR 50.82(a)(8)(vii)**

Plant Name: **Big Rock Point**

- | | |
|---|------------------|
| 1. Funds accumulated to cover the cost of managing irradiated fuel as of 12/31/2015 | See Note 1 |
| 2. Projected costs to manage fuel until DOE removal (2015\$) | \$ 57.47 million |
| 3. Plan as required | See Note 1 |

Note 1: Spent fuel management costs have been paid for out of Entergy Nuclear Palisades, LLC operating funds since Big Rock Point was acquired from Consumers Energy on April 11, 2007. Entergy Nuclear Palisades, LLC plans to continue paying for spent fuel management costs from said operating funds. Therefore, no funds are specifically accumulated for the cost of managing irradiated fuel at Big Rock Point as of 12/31/2015.

Attachment 3
ENOC-16-00008

(Page 1 of 4)

Entergy Nuclear Operations, Inc.
Status of Funding for Managing Irradiated Fuel – Vermont Yankee
For Year Ending December 31, 2015 - 10 CFR 50.82(a)(8)(vii)

Plant Name: **Vermont Yankee**

1.	Funds accumulated to cover the cost of managing irradiated fuel as of 12/31/2015	\$ 235.51 million [Note 1]
2.	Projected costs to manage fuel until DOE removal (2015\$)	\$ 360.86 million
3.	Plan as required	See Note 2

Note 1: This amount represents the excess funds available in the Vermont Yankee decommissioning trust fund less an amount necessary to decommission the Independent Spent Fuel Storage Installation (ISFSI). Per Vermont Yankee's updated decommissioning cost analysis (Reference 1), the present value of excess funds in the decommissioning trust at the end of decommissioning in 2075, after considering license termination expenses, is \$240.56 million ($\$773.81 \text{ million} / (1.02)^{(2075-2016)}$). See Table 3-1 below. Table 3-1 has been constructed by removing spent fuel management expenses from Table 13-1, Decommissioning Funding Status Report per 10 CFR §50.75(f)(1) and 10 CFR 50.82(a)(8)(v) -- Entergy Nuclear Operations, Inc. filed March 2016, to yield the surplus at the end of decommissioning that would otherwise be available for spent fuel management and ISFSI decommissioning. This calculated surplus takes into account available funds in the decommissioning trust. The estimated cost for decommissioning Vermont Yankee's ISFSI is \$5.05 million. Thus, the present value of Vermont Yankee trust funds available for spent fuel management is \$240.56 million minus \$5.05 million, or \$235.51 million.

Note 2: Reference 3, Attachment 13 demonstrates that the Vermont Yankee decommissioning trust fund is sufficiently funded for all license termination activities and certain spent fuel management activities (i.e., operational costs shown in Column 2 less Column 3 of Table 13-1 of Reference 3). As discussed in the Irradiated Fuel Management Program Update (Reference 2) costs related to spent fuel management operations (e.g., operations and maintenance costs for the spent fuel and Independent Spent Fuel Storage Installation, totaling approximately \$223 million) will be funded from the decommissioning trust fund. Entergy Nuclear Operations, Inc. obtained an exemption that allows the use of trust funds for spent fuel management activities (NRC Approval of Exemption Request for Spent Fuel Management, 80 Fed. Reg. 35992, Reference 4). The licensee acknowledges the need for an exemption pursuant to 10 CFR §50.12(a) to use radiological decommissioning trust funds for costs other than decommissioning activities as defined in 10 CFR 50.2. The remaining \$138 million is associated with transfer of spent fuel to dry storage (e.g., procurement of dry storage systems, transfer of fuel from the spent fuel pool to the Independent Spent Fuel Storage Installation (ISFSI), and construction of the second ISFSI pad). To fund the "transfer to dry storage" portion of spent fuel management costs, Entergy Nuclear Vermont Yankee, LLC has established two separate revolving credit facilities from third party banks totaling \$145 million.
