Rockville, MD 20852

This is a notification per 10 CFR 31.5(c) (8) that the GM Components Holdings, LLC facility in Kokomo, Indiana transferred static eliminators to the following location on January 28, 2016:

NRD LLC
2937 Alt Boulevard
PO Box 310
Grand Island, NY 14072-0610
License # 1391-1811

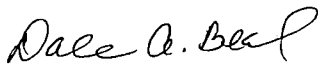

The inventory of the shipment is enclosed.

This is our second attempt at filing this information. Our first attempt was via a letter dated February 18, 2016 sent to the address provided in the applicable federal regulation, 10 CFR 30.6. The letter was returned to us on March 29, 2016 with a "Not Deliverable as Addressed" label affixed to the envelope. The delivery address was checked against 10 CFR 30.6 and found to be correct. A call was then placed to your agency. We were informed by your Agency that the US Postal Service has stopped delivering at least some mail to the address given in 10 CFR 30.6 and that other parties have also had their letters returned. It was suggested that we re-mail the notification to the above-referenced street address.

Enclosed you will also find copies of the returned envelope and original cover letter which shows that we attempted to comply with the requirements of 10 CFR 31.5(c) (8). We trust that no follow-up actions are needed by either your agency or our company.

Please call me at 765-451-6737 if there are any questions regarding this notification.

Sincerely,

Dale A. Beal
Senior Environmental Engineer
