March 28, 2016

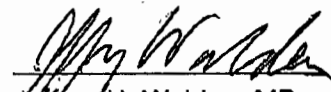

RE: Closure of a licensed site for Materials License No. 06-28274-01.
Docket No. 030-30786.

Ms. Janice Nguyen:

It was recently noticed that our Materials License still carries an old site address for the use of radioactive materials. The address of 85 Seymour Street Suite 719, Hartford, CT has not conducted nuclear cardiac patient studies since late March 2002 and a final survey was performed in May. The survey and wipe test data was referenced in a letter to your agency in October 2002. Therefore, we request that the old site address of 85 Seymour Street Suite 719, Hartford, CT now be removed from our radioactive materials license.

If you have any questions or desire additional information, please contact me at 860-522-0604, or, 860-659-2439. We appreciate your efforts to process this amendment and we look forward to a continued safe and effective materials program. Thank you.

Respectfully,

Jeffrey H. Walden, MD
Radiation Safety Officer

590548

NMSS/RGNI MATERIALS-002

This is to acknowledge the receipt of your letter application dated

03/28/2016, and to inform you that the initial processing which includes an administrative review has been performed.

06-28274-01 (Amendment)
☒ There were no administrative omissions. Your application was assigned to a technical reviewer. Please note that the technical review may identify additional omissions or require additional information.

☐ Please provide to this office within 30 days of your receipt of this card
