2443 WARRENVILLE RD. SUITE 210
LISLE, IL 60532-4352

APR 01 2016

Todd Heiskell
Radiation Safety Officer
Zevacor Pharma, Inc. d/b/a Zevacor
21000 Atlantic Blvd.
Ste. 730
Dulles, VA 20166

Dear Mr. Heiskell:

Enclosed is Amendment No. 06 to your NRC Material License No. 45-25221-05 in accordance with your request, with the exception of any changes to the mailing address. As discussed, if desired, please submit a signed and dated letter clearly specifying any requested changes to Item 2 of the above referenced license. We have also updated language in Condition Nos. 12, 15, and 17 to reflect current licensing policy. Finally, note that, in accordance with NRC policy, we have added the NRC's Agencywide Documents Access and Management System (ADAMS) accession numbers to the application, facsimile, and facsimile letters identified previously in License Condition No. 21.

Changes made to your license are printed in **bold** font. Please review the enclosed license amendment document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9892 so that we may provide appropriate corrections and answers.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with Title 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

Enclosure 1 to this letter contains sensitive security-related information.
When separated from this cover letter this letter is uncontrolled.

[REDACTED]

T. Heiskell

- 2 -

In accordance with Title 10 CFR 2.390, a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS, which is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Sara A. Forster, M.S., Health Physicist
Materials Licensing Branch
