

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**

REGION I
2100 RENAISSANCE BLVD., SUITE 100
KING OF PRUSSIA, PA 19406-2713

April 1, 2016

Docket No.: 03038909
Mail Control: 590285

License No.: 47-35296-01

Mr. David Morgan
Vice President Operations
STS International, Inc.
1225 South Clark Street
Suite 1300
Arlington, VA 22202

**SUBJECT: STS INTERNATIONAL, INC., REQUEST FOR ADDITIONAL INFORMATION
CONCERNING NRC LICENSE APPLICATION, CONTROL NO. 590285**

Dear Mr. Morgan:

This letter is in reference to the subject application, dated February 19, 2016 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML16061A250), requesting a Nuclear Regulatory Commission License.

Today, April 1, 2016, Ms. Gisela Martinez, Mr. Alan Fellman, and Mr. Tim Miller and I discussed several aspects of the application. In order to continue our review, we need the following information:

1. In Item 5 of your application for a specific license to use byproduct material in the form of a sealed source or in a device (application), you listed sealed sources and identified the source and device by manufacturer and model number in Table 1. However, during my verification search in the National Sealed Source and Device Registry I noted that the name of the sealed sources and device manufacturer(s) have changed. During our conversation, we discussed the name change(s). Please provide the precise information for the sealed source(s) requested in your application.
2. During my review of the application, I noted that the address on the cover letter of your application is different from the address listed in NRC Form 313 Box 2. During our conversation, we discussed that the address that you wish to have on the license is the Virginia address. Please confirm.

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 590285. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5323. Your reply must be in writing by letter or facsimile (610-337-5269). You may submit a signed PDF via email. If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

Your submittal should not contain personally identifiable information (PII), such as date of birth, social security number, home addresses, and home telephone numbers. For additional information, refer to Regulatory Information Summary 2007-04, Personally Identifiable Information Submitted to the U.S. Nuclear Regulatory Commission, dated March 9, 2007, (<http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2007/ri200704.pdf>).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Sincerely,

Laurie A. Kauffman
Health Physicist
Decommissioning and Technical Support Branch
Division of Nuclear Materials Safety
