Subject: NRC Inspection Report 030-38058/2016-001

Jerry,

Thanks for your support as well as that of Michelle and Laura during the NRC inspection that was conducted on March 8, 2016, at the Gilbane Federal office in Concord, California. As discussed during the final exit briefing conducted with you on March 14, 2016, the attached NRC Inspection Report (NRC Form 591M) 030-38058/2016-001 presents the results of the inspection. No violations were identified. This Inspection Report does not require you to take any action and you are not required to sign it or return it. I do however request a courtesy email response acknowledging receipt.

Also thank you for providing letter dated March 11, 2016, providing notice of Gilbane Federal's termination of NRC licensed activities at the former Hunters Point Naval Shipyard. I think we had a good discussion about these activities both during and after the inspection. I am glad that we were able to discuss this matter with Gene Forrer of CDPH/RHB so that we are all on the same page as to the jurisdictional issues related to the site. I have cc'd him on this email for his awareness.

Please let me know if you have any questions.

Regards,
Janine
