Re: Mid-America Isotopes Transfer of Ownership

Dear Ms. Casey:

This letter is in response to your request for more information defining ownership of the existing RAM licenses

Pharmalogic Holdings Corp (Parent Company) owns 100% the licensees described in the organizational chart included. Of which 5 are NRC and 8 being Agreement States (AS) licenses. We are adding Mid-America Isotopes which will add an additional NRC license to our network.

Mid-America will retain its corporate name and its federal employer ID number. Mid-America will continue to operate its business and there will be no change in personnel or duties that relate to the licensed program.

Should you need any further information please contact me either by email (rvansant@pharmalogic.info) or on my cell phone number 678-333-5896.

Regards,

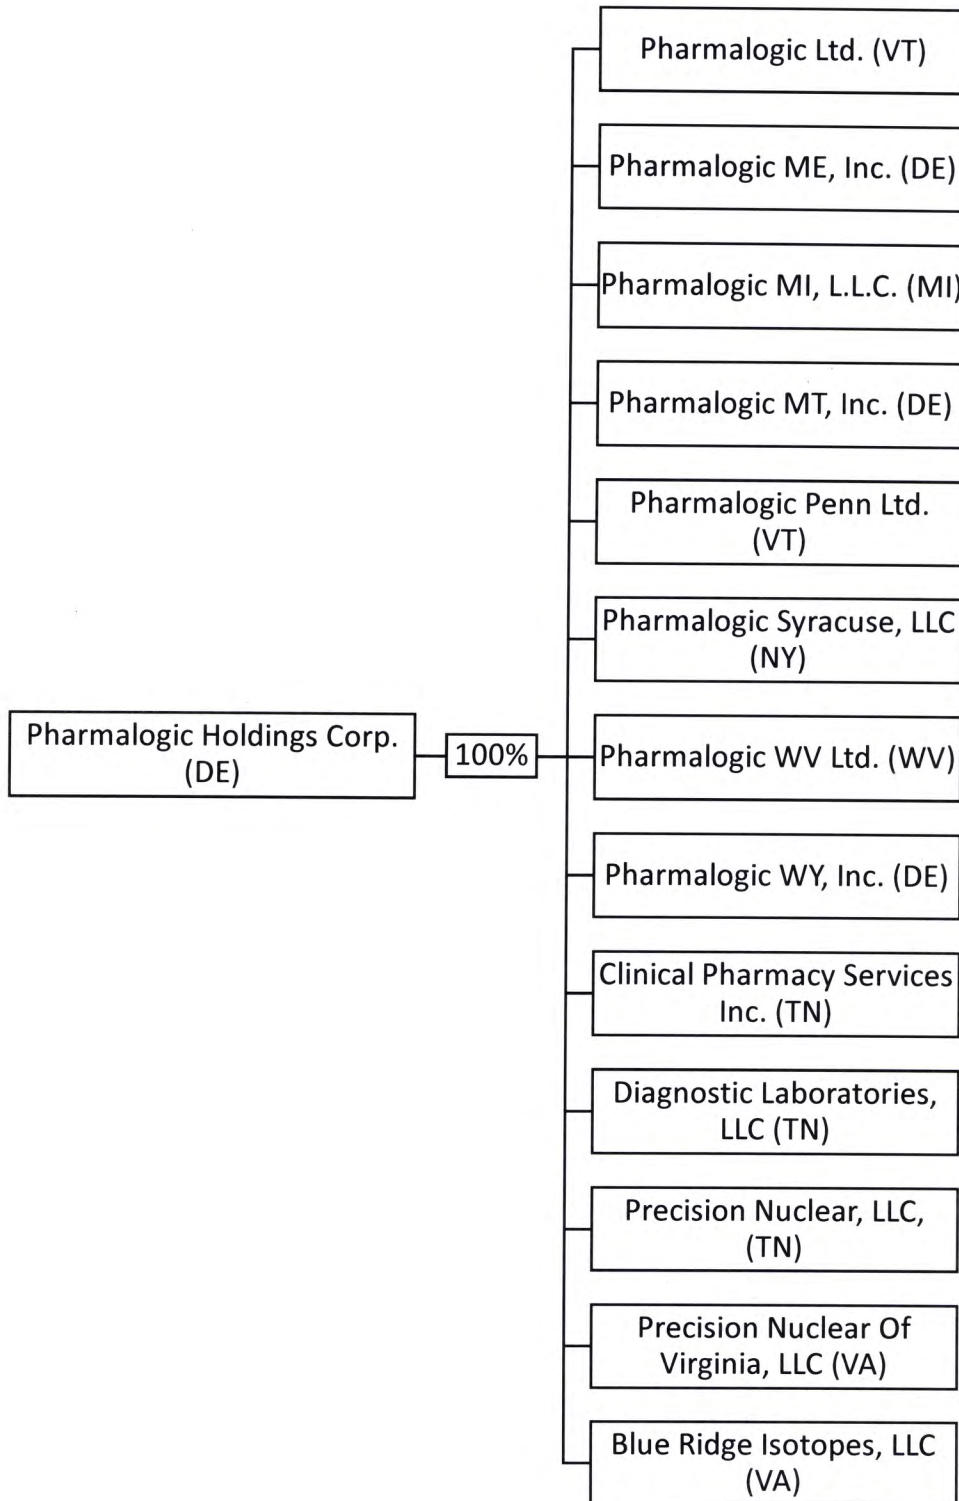

Richard Van Sant, PharmD

Colleen

Please the attached. I apologize for sending the response in an email, and not on company letterhead signed. I thought since you had an original signed response the follow question would be accepted in an email.

Thank you again for your assistance.

Regards,

Richard

Dear Richard,

We cannot accept this response because you did not prepare the requested brief business-style letter identifying the involved licensee, etc., transmitting the org chart and including the brief descriptive narrative we discussed. Your letter must be signed. These instructions were in my original letter to Scott. We can never accept correspondence that is unsigned. Please follow the instructions in my letter and resubmit this. You can scan in the completed letter and accompanying org chart and email them to me but that is just a means of transmission.

Thanks.
Colleen

Dear Richard,

In your response letter, you still do not describe the relationship between PHC and the individual licensees and that is what we are after. My understanding, from talking to you, is that PHC owns the individual licensees somehow. Can you please clarify that, explicitly, and provide a tiny bit more detail to ensure the thread of the relationship is understood?

Also, as I noted in my letter, for NRC licensees, you only need to give us the number of the license. We can find it from there, even if it is out of our region.

It is only for Agreement States that we have no access whatsoever to the licenses.

Thanks very much.

Colleen

Colleen

Please find attached our response to your request for additional information in the purchase of Mid-America Isotopes. I have also attached 2 RAM license in their entirety, one NRC and one agreement state RAM as requested.

Should you need anything further please feel free to contact me.

Regards,

Richard
