

SAFETY EVALUATION REPORT

Docket No. 71-9337
Model No. 9379A
Certificate of Compliance No. 9337
Revision No. 3

SUMMARY

By application dated December 17, 2015 (Agency Document Access Management System (ADAMS) Accession No. ML15352A023), as supplemented January 21, and March 10, 2016 (ADAMS Accession Nos. ML16033A082 and ML16075A363 respectively), Croft Associates Ltd. requested renewal of Certificate of Compliance (CoC) No. 9337 for the Model No. 3979A shipping package. Croft Associates Ltd. also requested an editorial change be made to the certificate of compliance and provided revised safety analysis report pages. The certificate has been renewed for a five year term.

CONCLUSION

By application dated December 17, 2015 (ADAMS Accession No. ML15352A023), as supplemented January 21, and March 10, 2016 (ADAMS Accession Nos. ML16033A082 and ML16075A363 respectively), Croft Associates Ltd. requested renewal of CoC No. 9337 for the Model No. 3979A shipping package. Although Croft Associates Ltd. did not request any changes to the package design or authorized contents, they did provide updated safety analysis (SAR) pages with their renewal request. Croft stated that the updated SAR pages reflected changes which should have been made prior to initial issuance of CoC 9337, but were inadvertently omitted. Staff reviewed the submitted changed SAR pages and confirmed that only changes requested by staff during the initial review of the package had been made. Staff also reviewed the documents referenced in the certificate and determined that the documentation was available and complete. Staff reviewed both the operating and maintenance procedures. Although staff determined that the operating instructions were adequate, staff determined that a portion of the maintenance procedures had been inadvertently deleted from the SAR and requested the information from the applicant. Croft Associates subsequently provided the updated maintenance instructions and staff determined the updated maintenance instructions to be adequate.

The certificate is revised to update the revision number, remove unnecessary change bars, and make editorial changes. The certificate has been renewed for a five year term that expires on March 31, 2021. This change does not affect the ability of the package to meet the requirements of 10 CFR Part 71.

Issued with Certificate of Compliance No. 9337, Revision No. 3, on April 7, 2016.
