Subject: Verification of preceptor

Discussion: The above mentioned licensee submitted an amendment to change the Radiation Safety Officer (RSO). Within the amendment, a preceptor was named that is the RSO on a New York State radioactive materials license. I contacted the New York State Department of Health to get verification of a preceptor. I spoke with Mr. Gordon and he verified that the preceptor was in fact on the license and that the preceptor was authorized for the materials that were mentioned in the preceptor attestation statement. I also verified that these were the same materials that the licensee is authorized for.

Action Required: Place into ADAMS as documentation for the licensee mentioned
