Yes Perry – I just heard your voicemail and we have no comments pertaining to the amendments.

Thank you!!

Cindy

Subject: NRC Notification of State of Florida Regarding St. Lucie License Amendment - Remove Technical specification requirements and transfer to licensee controlled documents

Good Afternoon Ms. Becker,

As a follow-up to our phone conversation this afternoon morning, the U.S. Nuclear Regulatory Commission (NRC) is about to issue license amendments for the St. Lucie Nuclear Plant, Units 1 and 2. In accordance with Title 10 of the Code of Federal Regulations, Section 50.91(b), I am notifying you of the proposed issuance of these amendments.

Please reply if the State of Florida has comments on the following licensing action submitted to the NRC by Florida Power & Light Company, et al. (the licensee): "Application for Technical Specification Change to Remove the 10 Year Sediment

Cleaning of the Fuel Oil Storage Tank and Relocate to Licensee-Controlled Documents” dated July 14, 2015 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML15198A032), as supplemented by a letter dated January 21, 2016 (ADAMS ML16048A248).

The associated proposed no significant hazards consideration for this amendment request was published in the Federal Register on September 29, 2015 (80 FR 58518).

Your response is requested by April 19, 2016. If you have any questions, please call or e-mail me.

Thanks,

Perry Buckberg
