Ladies and Gentlemen:

**DOCKET NUMBERS 50-483 AND 72-1045
CALLAWAY PLANT UNIT 1
UNION ELECTRIC CO.
RENEWED FACILITY OPERATING LICENSE NPF-30
RADIOLOGICAL EMERGENCY RESPONSE PLAN APPENDIX J,
"CALLAWAY PLANT ON-SHIFT STAFFING ANALYSIS REPORT," REVISION 003**

Enclosed (as Attachment 2) is one copy of Revision 003 to the Callaway Plant Radiological Emergency Response Plan (RERP). Appendix J, "Callaway Plant On Shift Staffing Analysis Report," which is referenced in the RERP as a stand-alone document. RERP Appendix J has been revised in order to reflect changes to emergency operating procedures, some of which were made for implementation of FLEX strategies required to be established in response to NRC Order EA-12-049, "Order Modifying Licenses with Regard to Requirements for Mitigation Strategies for Beyond-Design-Basis External Events." A brief description of each change made to Appendix J is provided in Attachment 1, "RERP Appendix J Revision 003 - Summary of Changes."

The changes to Appendix J do not represent a reduction in the effectiveness of emergency preparedness for the Callaway Plant. The RERP continues to meet the standards of 10 CFR50.47(b) and the requirements of 10 CFR50.54(q).

If there are any questions concerning this letter, please contact Gene Juricic at 314-225-1149. This letter does not contain new commitments.
