**RE: License Renewal – U.S. Nuclear Regulatory Commission Radioactive
Materials License 41-35044-01; Docket 030-38619**

Dear Mr. Hammann:

EnergySolutions, LLC requests an amendment to the above referenced radioactive materials license.

Please remove William A. Veronee, Jr., as the license Radiation Safety Officer (RSO) and add Jonathan Newman. Due to recent business divestures and reorganizations within EnergySolutions, Mr. Veronee will be filling a role in operations. In addition, as a result of these business divestures and reorganizations, EnergySolutions will be relocating this radioactive material license from Oak Ridge, Tennessee to Columbia, South Carolina.

The exact new location for our business in Columbia, South Carolina has not been completed. Therefore, please change the radioactive material license location from Oak Ridge, Tennessee to Suite 100, Center Point II, 100 Center Point Circle, Columbia, South Carolina 29210. EnergySolutions will request a change of address for this radioactive materials license once the new office location has been finalized.

Mr. Newman has more than 30 years' experience in radiological operations including a master's degree in Health Physics. Mr. Newman is certified by the American Board of Health Physics.

Enclosure: Resume of Jonathan Newman

Jonathan Newman

Summary of Qualifications:

- 30 years of nuclear power industry experience
- 5 years of experience in performing EP Coordinator duties in support of a nuclear power station radiological emergency response program
- Extensive experience in filling station Emergency Response Organization and industrial safety support positions
- Qualified as training instructor, experienced in delivering a variety of instructional materials
- Experienced in performing program audits and self-assessments
- Effective leader and proponent for change

PROFESSIONAL EXPERIENCE:

June 2012 – Present
Senior Radiological Engineer

Columbia, SC
EnergySolutions, Inc

Provide radiological support for waste transport and disposal activities and other radiological projects. Supported ZionSolutions emergency plan revision and exercise planning/implementation

July 2007 – June 2012
Senior Emergency Preparedness Specialist

Three Mile Island Station
Exelon Corporation

* Led support activities for station emergency plan implementation in areas of ERO training, facility readiness, and drill/exercise planning and execution. Support Regulatory Assurance functions in inspection activities and routine Performance Indicator reporting.

March 2004 – July 2007
Radiological Engineering Manager

Limerick Generating Station
Exelon Corporation

* Managed resources of the department program support in the areas of radiological engineering, radiological hazard control, and radiological work management.

August 1995 – March 2004
Rad Engineering Supervisor/Principal Health Physicist

Duane Arnold Energy Center
Nuclear Management Co.

* Led support activities for the station radiation protection program in the areas of radiological engineering, personnel dosimetry, radiological instrumentation, and remote job coverage applications.

Jonathan Newman – Page 2 of 2

June 1990 – August 1995
ALARA Specialist

Crystal River Nuclear Plant
Florida Power Corporation

* Developed, administered, and implemented the station radiation exposure reduction program and industrial hygiene program.

September 1988 – June 1990
Contract ALARA Engineer/Contract RP Supervisor

Various Sites
United Energy Services Corp

* Performed varied tasks in support of contract nuclear power station assignments at Duane Arnold Energy Center, Quad Cities Nuclear Station, PP&L Corporate Nuclear offices, and Rancho Seco Nuclear Station.

September 1985 – August 1988
Radiation Protection Engineer

Diablo Canyon Power Plant
Pacific Gas & Electric Company

* Provided technical support and ALARA program support for the station Health Physics and Industrial Safety programs.

September 1982 – September 1984
Health Physics Technician

Susquehanna Steam Electric Station
Pennsylvania Power & Light Co.

* Performed radiological surveys and provided radiological coverage for a variety of maintenance and decontamination tasks.

EDUCATION:

M.S. Health Physics, Georgia Tech, [REDACTED]
B.S. Biology, Virginia Tech, [REDACTED]

Completed Exelon Corporation Supervisor Development Program, April 2005.
Completed Nuclear Management Company Leadership Development Program, August 2002.
Completed INPO Radiological Protection Development Seminar, March 2002

PROFESSIONAL CERTIFICATION:

American Board of Health Physics, Comprehensive Certification, October, 1992
