SUBJECT: NRC INSPECTION REPORT NO. 03030945/2016001, SMITHSONIAN
INSTITUTION

Dear Mr. Robinson:

This letter forwards NRC Form 591, "Safety Inspection," indicating that no items of non-compliance were found during the above described inspection of your licensed activities. Please retain the form in your files. No acknowledgment of this letter is required. However, should you have any questions, we shall be pleased to discuss them with you.

During the previous inspection of your program (Inspection No. 2014001) one violation was identified concerning the failure to complete required inventories of licensed material. Your implementation of the corrective actions described in your correspondence dated June 5, 2015, as approved by NRC in the letter to you dated June 10, 2015, from Blake Welling is in progress. Your progress made to date was reviewed during this inspection, however the violation will not be closed because corrective actions are not complete. Your completed corrective actions will be reviewed during a future inspection.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Regulations, Guidance and Communications**. The current Enforcement Policy is included on the NRC's website at www.nrc.gov; select **About NRC, Organizations & Functions; Office of Enforcement; Enforcement documents**; then **Enforcement Policy (Under 'Related Information')**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).
