Subject: 10 CFR 72.48 Biennial Report

In accordance with 10 CFR 72.48(d)(2), Maine Yankee Atomic Power Company (Maine Yankee) is required to submit to the NRC a brief description of any changes, tests or experiments made pursuant to 10 CFR 72.48(c), including a summary of the evaluation of each. This report covers the period from April 1, 2014 to March 31, 2016.

No changes were made to the facility or the spent fuel storage cask design or procedures, and no tests or experiments were conducted that required the performance of a 10 CFR 72.48 Evaluation pursuant to 10 CFR 72.48(c). Any changes made and tests or experiments conducted during this reporting period did not constitute "changes" as defined in 10 CFR 72.48 and were therefore "screened out." As such, a summary of those changes, tests, or experiments is not required to be submitted to the NRC.

This letter contains no commitments.
