The NRC staff reviews a licensee's performance during inspections of each facility. This includes verification that the licensee is following the applicable regulations and requirements of their license. The link below is to the most recent inspection report for the

Smith Ranch Highland facility; staff did identify a violation during this inspection.

**Subject:** [External\_Sender] surety bond annual adjustment

Thank you for your reply to part of my questions concerning Smith Ranch Highland facility. I do question, however, if this surety was actually adjusted annually in the years 2002 to 2015? Annual adjustments are called for in the license renewal of 2010 and in years before. What are the consequences of not following the license requirements in this regard? Does the NRC enforce the license stipulations?  
Thank you.
