Licenses: Holders of Materials Licenses That Received
U.S. Nuclear Regulatory Commission Security Orders ML16053A386

Subject: RESCISSION OF U.S. NUCLEAR REGULATORY COMMISSION SECURITY
ORDERS FOR COMPENSATORY MEASURES AND ADDITIONAL SECURITY
MEASURES

This is to inform the Commission that Security Orders, which were previously issued under the NRC's common defense and security authority to certain types of materials licensees, will be rescinded on or about April 21, 2016. Letters will be sent to all Agreement State licensees impacted by the Security Orders' rescission (ADAMS Accession No. ML16053A386).

The orders (i.e., Panoramic and Underwater Irradiator, Manufacturing and Distribution, Radioactive Material in Quantities of Concern, and Fingerprinting) were instituted to address the security of Category 1 and Category 2 quantities of radioactive material until security regulations could be promulgated.

The NRC has determined that the Agreement States, listed in Enclosure 1 of the rescission letter, have established final regulations or other legally-binding requirements which are adequate and compatible with 10 CFR Part 37. The NRC will rescind the NRC-issued orders through a formal written correspondence.

The Agreement States listed in Enclosure 1 of the rescission letter will be notified.
