and 72.54(k)(5)(1)(1)

U.S. NUCLEAR REGULATORY COMMISSION

APPROVED BY OMB: NO. 3160-0028

EXPIRES: 02/28/2017

CERTIFICATE OF DISPOSITION OF MATERIALS

Estimated burden per response to comply with this mandatory collection request: 30 minutes. This submission is used by HRC as part of the basis for its determination that the facility is released for unrestricted use. Send comments regarding burden estimate to the FOIA, Privacy, and Information Collections Branch (7-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by internet e-mail to InfoCollect.Resource@nrc.gov, and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0028), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

LICENSEE NAME AND ADDRESS

University of Saint Francis
2701 Spring ST
Fort Wayne, IN 46808

LICENSE NUMBER

13-32541-01

DOCKET NUMBER

030-37128

LICENSE EXPIRATION DATE

April 30, 2016

A. LICENSE STATUS (Check the appropriate box)

This license has expired.

This license has not yet expired; please terminate it.

B. DISPOSAL OF RADIOACTIVE MATERIAL

(Check the appropriate boxes and complete as necessary. If additional space is needed, provide attachments)

The licensee, or any individual executing this certificate on behalf of the licensee, certifies that:

1. No radioactive materials have ever been procured or possessed by the licensee under this license.

2. All activities authorized by this license have ceased, and all radioactive materials procured and/or possessed by the licensee under this license number cited above have been disposed of in the following manner.

a. Transfer of radioactive materials to the licensee listed below:

b. Disposal of radioactive materials:

1. Directly by the licensee:

2. By licensed disposal site:

3. By waste contractor:

c. All radioactive materials have been removed such that any remaining residual radioactivity is within the limits of 10 CFR Part 20, Subpart E, and is ALARA.

C. SURVEYS PERFORMED AND REPORTED

1. A radiation survey was conducted by the licensee. The survey confirms:

a. the absence of licensed radioactive materials

b. that any remaining residual radioactivity is within the limits of 10 CFR 20, Subpart E, and is ALARA.

2. A copy of the radiation survey results:

a. is attached; or b. is not attached (Provide explanation); or c. was forwarded to NRC on: 4/9/2013
Date

3. A radiation survey is not required as only sealed sources were ever possessed under this license, and

a. The results of the latest leak test are attached; and/or b. No leaking sources have ever been identified.

WARNING: FALSE STATEMENTS IN THIS CERTIFICATE MAY BE SUBJECT TO CIVIL AND/OR CRIMINAL PENALTIES. NRC REGULATIONS REQUIRE THAT SUBMISSIONS TO THE NRC BE COMPLETE AND ACCURATE IN ALL MATERIAL RESPECT. 18 U.S.C. SECTION 1001 MAKES IT A CRIMINAL OFFENSE TO MAKE A WILLFULLY FALSE STATEMENT OR REPRESENTATION TO ANY DEPARTMENT OR AGENCY OF THE UNITED STATES AS TO ANY MATTER WITHIN ITS JURISDICTION.

April 9, 2013

Ms. Patricia Pelke
Licensing Branch Chief
U.S. Nuclear Regulatory Commission
Region III
2443 Warrenville Road, Suite 210
Lisle, Illinois 60532-4352

Dear Ms Pelke

I recently received a visit from Robert P. Hays, health physicist for Region III of the NRC. In our conversation it became clear that we were no longer using our materials license (number 13-32541-01). The expiration date is April 30th 2016 and the docket number is 030-37128. In the period of time since we received the license (April of 2006), we used the license to make a single purchase 250 mCi of P32 on June 11, 2007. We made no purchases before that date and haven't made any purchases since that time.

In my conversation with Mr Hays, he suggested that if we are not using the license that we terminate it unless we intend to use it again soon. I talked to the two "users" whose name appears on the license with mine (Drs Elick and Dr Beam) and they indicated that they won't be using the license in the foreseeable future. Therefore I am requesting that the license be terminated.

With regards to the P32 that was purchased in June of 2007, the isotope was used in a research experiment in the radiation lab and after use it was allowed to decay in place (140 days) and disposed of. The lab was surveyed for any residue during the experiment and following the 140 day period mentioned above. The readings were not above background. The researcher was wearing a film badge and also finger badges (rings) and the exposure of the researcher (Dr Elick) was not above background.

Please view this letter as a formal request to terminate the license. I appreciate your attention to this matter. If you are not the correct person to contact with this request I would appreciate it if you let me know or forward the request to the proper person.

Sincerely,

Dr. Richard T. Hurley RSO
University of Saint Francis

Attachments: U. Saint Francis Termination Application 4.21.16.pdf

Hi Tammy,

I have the termination application filled out. I have also attached Dr. Hurley's letters of request for termination from 2013. Let me know if you have any questions.

Dr. Jean Elick is still at the University if you need to contact her or myself.

Subject: Form 314, Termination of Materials License

Hi Paula,

Attached is the form that will need to be completed and returned to terminate your materials license. You can either email the information to me, or fax to our office at (630) 515-1078. Please submit completed form no later than April 27, 2016.

If you have any additional questions, or require further information, please let me know.

Thank you,

Tammy Tomczak
