APR 21 2016

Valeriia Starovoitova, Ph.D.
Radiation Safety Officer
Niowave, Inc.
1012 N. Walnut Street
Lansing, MI 48906-5061

Dear Dr. Starovoitova:

A letter dated January 19, 2015 (received January 25, 2016), signed by Terry L. Grimm, Ph.D., President and Senior Scientist, was submitted with a request to amend your NRC Material License No. 21-35144-02, to modify the possession limits of licensed material, and make several changes to the radiation safety program. Based on our review of the documentation submitted with your application, we determined that additional information will be needed to complete the review of your request. On April 12, 2016, during a telephone conference, with yourself, Dr. Grimm, and Mr. Jerry Hollister, Chief Operating Officer, we discussed the current status of the review and informed you that your amendment request would be voided to allow sufficient time to complete a licensing meeting in the Region III office, Lisle Illinois, and to respond to a request for additional information (as a result of the meeting). As discussed, we will continue our review of your amendment request upon completion of the licensing meeting and receipt of your response to a request for information.

If you have any questions or require clarification on any of the information stated above, please contact me at (630) 829-9830 or Cassandra.frazier@nrc.gov.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read "Cassandra F. Frazier".

Cassandra F. Frazier
